

Illinois WIC Program- Temporary Additions to Contract Formulas

The table below includes information about new products that will be available as temporary powdered and Ready-to-Use (RTU) formula options. The Family Shopping List description for the standard issuance formulas will not change, please provide education to participants on their available options. Due to the bigger size containers and additional reconstituted ounces provided, 2 cans will be deducted from the available balance for every 1 can purchased for those products in 27 oz or larger powder containers.
